## Artist Information

---

JASMINE CRISP

### Statement

"I am fascinated with the relationships between people, their belongings and home environments. My paintings are driven by ideas concerning how objects and places are treasured, valued, possessed, or used as forms of self-adornment and identification."

### Biography

Informed by a fascination of the relationships between people, Jasmine Crisp's work takes on a dream-like characteristic in which the viewer is drawn into Jasmine's world. The interactions between people and their real and imaged spaces creates a story all its own.

Graduating with a Bachelor of Visual Arts (Honours) at Adelaide Central School of Art in 2017, Crisp's work has expanded from beyond her usual medium of oil painting and drawing to include installations and murals. She has also since been awarded the YouthScape Art Prize, along with being named the finalist in various prestigious art prizes, and has completed three international artist residencies in Iceland and Finland.
